dstsolar

dstsolar is the company responsible to manage the solar energy and energy efficiency activities of the Portuguese corporation **dstgroup**.

ENERGETIC EFFICIENCY

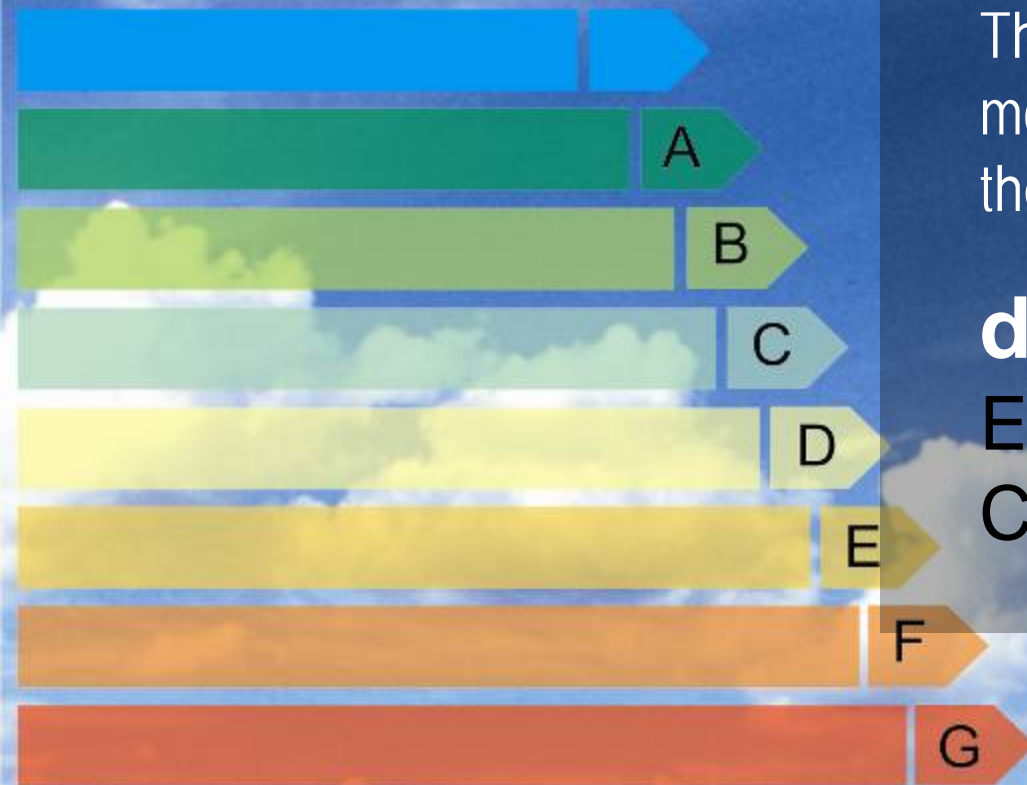

**MANAGEMENT
SOLUTIONS**

Energy efficiency is the concept expressed by a set of measures, or the effects of those measures, whose objective is the reduction of energy consumption such that consumer satisfaction is still maintained.

This is achieved through the more rational use of energy and the adoption of better practices.

dstsolar does Energy Efficiency Building Certifications

GLOBAL SUN

dstrenewables has some industrial and R&D projects in progress:

- A Photovoltaic solar panels production unity integrated with an R&D Unity, to develop new products, manufacture technologies using nanotechnologies, nanomaterials, and architecture integration.
- A Thermal solar panels brand, to develop new products and architecture integration

A high-speed photograph of a water splash against a blue background. The splash is in the lower-left quadrant, with several smaller droplets scattered around it. The text 'dsthydro' is overlaid on the splash.

dsthydro

Our **dsthhydro** company operates at the level of licensing, construction and operation of small Water Plants (<10 MW).

Until 2020 **dsth**hydro claims to be an important player on the national market of Small Water Plants, contributing to the strengthening and increasing of the **dst**group position as a producer of electricity from renewable sources.
